+971554826549 | sofiambfrancisco@gmail.com | Dubai, UAE | [Github](#) | [Website](#) | [LinkedIn](#)

SUMMARY

Aspiring security analyst and developer who thrives on uplifting creativity to build innovative solutions for real-world problems. Committed to redefining and making an impact on the current digital and security landscape while ensuring technology serves as a force for good. Knowledgeable in **security analysis, data analysis, networking, AI and ML development, software development, full-stack web development, and UX/UI design**, along with **social media marketing and content creation**.

SKILLS

Languages: Python, HTML, CSS, Javascript, Node.js, MySQL, MongoDB, Scikit-learn, NumPy, Pandas.
Softwares & Tools: VS Code, Kali Linux, Wireshark, Cisco Packet Tracer, BurpSuite, Microsoft Office, GitHub, Blender, Figma, Canva, Capcut.

CERTIFICATES

- Career Essentials in Cybersecurity by Microsoft & LinkedIn
- IBM SkillsBuild Cybersecurity Certificate
- Working towards CompTIA Security+

PROJECTS

[SOVA: AI-Powered Accessibility Tool for Visually Impaired](#) | [Website](#) | *Capstone Project* SEPT 2025 - APR 2026

- Engineered a real-time AI-powered video conferencing accessibility tool for visually impaired users using Python.
- Integrated computer vision, NLP, TTS, and LLMs using OpenCV, MediaPipe, DistilBERT, and Ollama.
- Designed high and low-level system architecture diagrams to map out modules and dependencies.

[AI Metal Waste Percentage Prediction](#) | *Requirement for CSCI323 Modern AI* JAN - MAR 2026

- Trained four ML models (KNN, SVM, random forest, and logistic regression) on metal production data to proactively predict waste percentage before fabrication.
- Aimed to optimize and improve cost budgeting and resource utilization for a metal manufacturing company.
- Utilized Scikit-learn, Pandas, and Matplotlib for data cleaning, pre-processing, visualization, and model training.

[MediCloud Network Configuration](#) | *Requirement for CSCI368 Network Security* SEPT - NOV 2025

- Designed and configured a network for a hypothetical mid-sized healthcare cloud technology company using Cisco Packet Tracer.
- Facilitated creation, set-up, and configuration of routers, switches, subnets, firewalls, ACLs, servers, and VPNs.
- Assessed criticality of each department and potential threats to implement adequate security measures and protocols.

[Cooking Papa: Recipe Sharing Website](#) | *Requirement for CSIT128 Web Development* MAY - JUN 2024

- Developed a recipe sharing website capable of uploading, browsing, and managing recipes.
- Full stack development — HTML/CSS/JS frontend and Node.js backend.
- SQL database for user registration/login and recipe storage.

EXPERIENCE

Head of Media @ UOWD Magazine Society | *University of Wollongong in Dubai* OCT 2023 - MAR 2026

- Filmed, designed, and edited posts, reels, and stories for Instagram and LinkedIn to promote the digital magazine.
- Managed efficient production calendars and deadlines to ensure on-time delivery of content.
- Coordinated cross-functional communication between president and team to align project goals.
- Evaluated team deliverables for quality and goal alignment to provide constructive feedback.

EDUCATION

Bachelor of Computer Science (Cybersecurity) | *University of Wollongong in Dubai*

SEPT 2023 - MAR 2026

- Received Dean's Merit List Award 2024.
- 83.4 WAM.
