PROJECTS

SOVA | Capstone Project

SEPT 2025 - PRESENT

- Designed and developed a real-time AI-powered video call accessibility tool for visually impaired users to bridge the gap of communication, focusing on using AI for inclusivity while employing cybersecurity practices for reliability.
- Integrated OpenCV, MediaPipe, TTS, and NLP into a chrome extension for seamless use with Google Meet.
- Showcased our product in the CS Innovation Fair to students, professors, and industry professionals.

Solving Operational Challenges with AI | Requirement for CSCI323 Modern AI

JAN 2026 - PRESENT

- Developed an AI-powered solution to solve real operational challenges within a UAE-based company.
- Trained four ML models to analyze trends and patterns using data given by the company.
- Wrote a detailed report on our solution's effectiveness, findings, and outcomes.

ORGANIZATIONS & SOCIETIES

UOWD Magazine Society – Head of Media | *University of Wollongong in Dubai*

OCT 2023 - PRESENT

- Designed and edited posts, reels, and stories for Instagram and LinkedIn to promote the magazine.
- Developed content calendars and delegated tasks to executives.
- Collaborated with, monitored, and reviewed executives' content to ensure timely delivery and best quality of output.
- Communicated regularly with the society president to share ideas and ensure alignment on goals.
